

Supervisor Meeting 2

Supervisor: Simon Perkins

Date: 21/04/21

Length: 1 hour

Contents:

This was my second supervisor meeting with Simon. This meeting was just under two months from the last, meaning a lot has happened with my project since then.

In this meeting I showed Simon some of the draft edits and he gave me some feedback on how I could edit some of the photographs. Simon suggested to think more about the placement of each photograph. He said that because the photos are film, I would be able to crop in without losing much quality. This gave me new insight of how I could compose the photographs. Simon also suggested adding some very slow pans and zoom to give some subtle movement to the still photos.

We also discussed my audio recordings and how well it went as well as planning how I would go about producing the music. I told Simon how I've been making patches on my synth throughout the production and recording them through my audio interface.

Overall Simon was pleased to see that I had been busy working away at my film and that he was excited to hear the music.
